PROJECTS

News Web App

📅 2024 📍 Delhi

🔗 <https://news-app-eta-seven.vercel.app/>

- News App using React JS uses React's basic principles to fetch the latest news from a News API and show them to users based on their interests.
- Made this webpage with using the fetch API call in reactjs to fetch the news from the link to show

Pocket Notes WebApp

📅 2024 📍 Delhi

🔗 <https://pocket-notes-flame.vercel.app/>

- Its a web application in which user can take notes.
- In a manner in which we have groups and inside those groups we can take notes and each and every note have written is added with date and time

Todo List

📅 03/2024 📍 Delhi

🔗 <https://to-do-app-iota-olive.vercel.app/>

- This to-do list can add new tasks we can also delete the tasks by clicking on them. The logic is handled by a change event handler whenever the user clicks on a task it gets deleted from the list and in the input section user can add new todos

Rock Paper Scissors

📍 Delhi

🔗 <https://vercel.com/priyanshu-s-projects-a8f2c6fc/rock-paper-scissors-game>

- Rock, paper, and scissors game is a simple fun game in which both players have to make a rock, paper, or scissors.
- It has only two possible outcomes a draw or a win for one player and a loss for the other player.

Facial Recognition Attendance system

📍 Dehradun

- A facial recognition attendance system uses facial recognition technology to identify and verify a person using the person's facial features and automatically mark attendance.
- A facial recognition attendance system is a contactless way to manage visitors , employees , students in an institute

EXPERIENCE

Graduate Trainee

Oil and Natural Gas Corporation Limited

📅 07/2022 - 08/2022 📍 dehradun

- Automatic Text Summarization Web Application using NLP
- Developed a web app on NLP based in ONGC
- Text Summarization is one of those applications of Natural Language Processing (NLP) which is used to summarize the textual documents in shorter form while retaining the important points from the document. Improved accuracy of Text Summarization algorithm using NLP techniques by up to 55%
